

The Arrow Board thats built to last.

**We are proud to offer the most reliable, enduring
and eco friendly arrow board on the market.**

As Australia's most reliable Arrow Board, it not only sets the benchmark for endurance and performance, by doing so, it also reduces environmental impact.

Our arrow boards have a life expectancy of 6 years plus with many still going strong after more than 10 years in service (we are still supplying globes for plenty of arrow boards we've sold over 10 years ago). In comparison competitor arrow boards often only last 1 or 2 years.

This not only means our arrow boards are far greater value, it also means up to 10 times less waste than many competitor arrow boards.

In addition to this, our local manufacturing and local sourcing of raw material (with the exception of the LED's) minimises off-shore logistics and reduces the CO₂ impact of production by an estimated 105kg CO₂/tonne.

20+ years proven track record

Available in 4 different standard sizes

**100% compliant with Australian
standards and NATA approved**

Controlled via optional IP65 rated tablet

Warranty rate of less than 1%

The experts in roading safety

ARROWES™
ROADING SAFETY

Quality Australian manufacturing.

Our manufacturing facilities are closely embedded into the local and regional supply chain and ecosystem. Arrowes sources as many components, parts and supplies as possible from our Queensland and Australian suppliers. We support the local business community and ensure our close connections benefit our clients in terms of response times, quality and service.
